The role of policy makers in spreading the benefits of Conservation Agriculture-based Sustainable Intensification (CASI) to farmers

Invest in infrastructure and equipment subsidies to trigger value chain

Integrate the principles of Agricultural Innovation Platforms (AIPs) in the current cooperative model

Invest in the development of a functional Soil Information System

Enhance agro-meteorological capacity at RAB and MINAGRI to enable generation of climate advisories for farmers.

Develop manuals to enhance farmers’ capacity to apply CASI appropriately.

Integrate agro-forestry in the CASI package to boost availability of biomass for mulch and animal feed
